***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Mortimore et al. The claims are directly readable on Mortimore et al in that the quantitative data is considered to be placed in a field other than an image field. It should be noted that applicant states that DICOM is the standard used in the industry to communicate medical files in electronic form. Mortimore et al disclose the use of a DICOM compatible file, see column 3, line 52, column 4, lines 39-41, column 5, line 28.

Claims 1-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Finger. The claims are directly readable on Finger in that the quantitative data is considered to be placed in a field other than an image field. It should be noted that applicant states that DICOM is the standard used in the industry to communicate medical files in electronic form. Finger discloses the use of a DICOM compatible file, see column 22, lines 47-50.

***Response to Arguments***

Applicant's arguments filed June 27, 2005 have been fully considered but they are not persuasive. Applicant's remarks are noted, however, the rejection of claims 1-

17 stands in view of the teachings of Mortimore et al and Finger which each discloses the use of a DICOM compatible file as discussed above. Applicant's remarks are not fully understood and the claims still appear to read on the prior art of record.

***Allowable Subject Matter***

Claims 18-27 are allowable over the prior art of record.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
